

YASH VIDYA NIKETAN Virar (East)

Kindly note that as per the notification of the National Health Mission Maharashtra, 'Measles-Rubella' (MR) Vaccination will be administered to students of the age group- 9 months to 15 years in school by Govt. deputed medical team on Saturday, 1st December, 2018 at Yash Vidya Niketan School, Virar (E).

Measles-Rubella is an infectious viral disease affecting children and adults that can cause disabilities like deafness, blindness, etc.

Hence, all the parents are advised to take advantage of the govt. initiative and support the MR Campaign in order to eliminate Measles from our country. Vaccination will be done during school hours on Saturday, 1st December, 2018.

Parents have to compulsorily come along with their ward and take them back after the vaccination. The Government notification clearly indicates that the MR Injection is very safe and effective.

However certain side effects like the ones mentioned here are commonly observed:

1) Redness 2) Pain 3) Swelling 4) Lump 5) Fever 6) Rash 7) Headache 8) Dizziness 9) Joint or Muscle Pain 10) Nausea 11) Vomiting.

In case, you find any of the above reactions after MR Vaccination, kindly take your ward to the Govt. deputed medical team present there for prompt medical attention.

*Kindly note that this is a compulsory campaign declared by the Government and you have to make sure that you and your ward remains present.
